Solar Energy

Solar energy is one of the effective renewable resources which is available frequently in the world. Our institution lies on the foothills of the western ghats which is frequently have very good sunny climate. The college has installed solar panels in the marine hostel, library, and mechanical block for solar power generation. During the academic year 2020-2021, the average power consumed was about 100205kW. The power generated through solar power was 2500kW respectively. The percentage of power utilization through solar energy was about 25 %, this was very useful to conserve the electrical power annually.
