Name of the ILMS Software	: KOHA
Nature of Automation (fully or partially)	: Fully
Version	: 21.05
Year of Automation	: 2021

❖ PSN College of Engineering and Technology has automated library since 2015 with a software PSNLIB developed by Computer Science and Engineering department of the college and enabled KRC with Koha (Open-Source Software) LMS in 2021 with a perceptual license.

❖ Koha is an open-source integrated library system, used worldwide by the public, school, and special libraries.

❖ Koha is a web-based ILMS, with a SQL database (My SQL preferred) back end with cataloguing data stored in MARC and accessible via Z39.50 or SRU. The user interface is very configurable and adaptable and has been translated into many languages. It is user-friendly software developed to work in a client-server environment. The software is suitable to international standards for bibliographic formats, networking, and circulation protocols.

Some of the features of Koha

❖ Koha Software supports more than 150 languages in both Indian and foreign Standards used such as CCF, AACR2, MARC21, UNIMARC, Cataloguing Import here Library of congress online catalogue.

❖ Copy Cataloguing.

❖ Supports cataloguing of E-resources like E-books, E-journals put here the URL of full text E-book Predefined Data Entry Sheet Multi volume series books can be entered Additional information of book can be attached.

❖ Can generate barcodes along with Call Number Reports in various formats.

❖ Highly versatile and sure friendly OPAC.

❖ Mail users can export the details of the recording to PDF, EXCEL.

Brief usage of Koha Modules in PSN College of Engineering and Technology

CATALOGUE:

Catalogue module issued for retrospective conversion of KRC resources. The strong features of catalogue module are 1) allows user-generated customized reports 2) facilitates authority database of person name 3) corporate body, subject headings, and series name 4) master database of publishers 5) supports full MARC 21 bibliographic format.

CIRCULATION

This module takes care of all possible functions of circulation. The circulation module is fully compliant with the Barcode Circulation. Major functions of the circulation module: Membership, Transaction, Inter-library loan, Overdue charges, Reminder, Search status, Maintenance of the items such as binding, lost, replace, missing, withdrawal, etc., and report generation based on the various requirements.

ADMINISTRATION

The administration module includes the following features: grouping of users based on the policy, transactional rights over the systems, transaction-level security to users, various configuration settings such as labels, e-mail, and other parameters related to the software use, and common master databases being used in modules.

OPAC: KOHA

OPAC having various sorts of looking through choices like straight forward, progressed, and Boolean pursuits. Users can know the status of KRC material. We have integrated OPAC with digital library accessing outside the campus by WEB OPAC.

MEMBER LOGIN/LOGOUT

KOHA programming having a part sign-in and log-out module to verify attendance in KRC for understudies' students and staff with a bar-coding option. It can generate log reports according to date, month, year-wise.
