The Department of Civil Engineering, PSN College of Engineering and Technology has conducted program on “**Election Awareness Campaign**” on 15.04.2024 at Sengalukurichi (Village panchayat). Raise awareness about voter suppression tactics and educate voters on their rights to ensure that all eligible citizens can exercise their right to vote freely and fairly. 12 Students and 01 Faculties were participated.

Students did door to door campaigning, advocating the message - Promote informed decision-making by providing unbiased information on candidates, their policies, and the potential consequences of their election.

Programme Outcome:

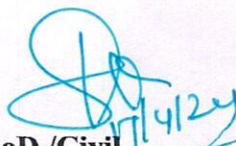

One of the primary objectives of the campaign could be to increase voter turnout in the upcoming election. The program's success could be measured by the percentage increase in voter participation compared to previous elections or baseline data. Another outcome could be the improvement of civic knowledge and awareness among the target audience.

The Department of Civil Engineering, PSN College of Engineering and Technology has conducted program on “Awareness Campaign on Polio” on 22.01.2024 at Sengalapurichi (Village panchayat). Polio, or poliomyelitis, is a disabling and life-threatening disease caused by the poliovirus. The virus spreads from person to person and can infect a person's spinal cord, causing paralysis (can't move parts of the body). 11 Students and 02 Faculties were participated.

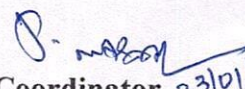

Students did door to door campaigning, advocating the message - ‘Polio Never Again’. Students vociferated slogans and distributed informative pamphlets to the passersby to spread awareness.

Programme Outcome:

This awareness program increased vaccination rates in targeted communities by dispelling misconceptions and educating individuals about immunization. This led to a decrease in reported polio cases, demonstrating the program's effectiveness in disseminating information about prevention and vaccination, ultimately reducing polio incidence.

The Department of Civil Engineering, PSN College of Engineering and Technology has conducted program on “**Awareness Program on Preventing & Fighting against Dengue**” on 10.10.2023 at Soorangudi (Village panchayat). Dengue Fever is a mosquito borne tropical disease caused by the dengue virus which can be a life threatening fever if proper and timely care is not taken. Swine Flu is another viral contagious respiratory disease. Many Influenza A viruses affect people and make them unhealthy. 11 Students and 02 Faculties were participated.

Students did door to door campaigning, advocating the message - ‘We can win against Dengue’. Students vociferated slogans and distributed informative pamphlets to the passersby to spread awareness.

Programme Outcome:

1. Reduction in Dengue Incidence: It should be a significant reduction in the incidence of dengue cases within the targeted area. This can be measured through a decrease in the number of reported dengue cases and a lower transmission rate of the virus.
2. Enhanced Mosquito Control and Surveillance: This involves reducing mosquito breeding sites, implementing effective vector control strategies, and establishing an early warning system to detect and respond to dengue outbreaks promptly.
